The proposed drawing changes dated 4/24/2007 have been approved by the Examiner.

Claims 4, 8, 9, 11, 15, 16, and 19-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 4, in its entirety, is not readily understood by the Examiner. In claim 4, line 2, the applicant recites "includes" which is equivalent to "comprising". In claim 4, lines 2-4, the applicant recites several elements and one of which is "a window pane drive mechanism". In claim 4, line 4, the applicant then recites "a mechanism" consisting of elements. Is this the same mechanism as before or is it a different mechanism? Can guide rails be considered "a mechanism? In claim 4, line 7, the applicant then recites "the window pane drive mechanism consists of" several elements. Is the inner panel part of the window pane drive mechanism? Then, in claim 4, line 13, the applicant recites "optionally, a gear assembly". "Optionally" is indefinite. Exactly what is the applicant trying to claim?

Depending on the applicant's amendments, it appears that claims 4, 8, 9, 11, 15, 16, and 19-22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The applicant's arguments having been considered but are not deemed persuasive. Ambiguity is laced throughout the entire claim 4 and still is not readily understood by the Examiner as discussed in detail above.

If the applicant would like to discuss the claims in more detail, the Examiner invites the applicant to call for clarity.
